IMPORTANT INFORMATION
ABOUT VEHICLE FINANCING

1. Bank Statement and Eligibility Assessment

If you do not already bank with any of our financing partners, you can initially submit your bank statement from your current bank. This will be used to assess your financial capacity and determine whether you qualify for an auto loan.

Once you meet the eligibility requirements and the financing bank approves your application, you may be required to transfer your salary account or business account to the financing bank.

2. Our Financing Partners

Please note that the banks listed are not our only financing partners. However, these are the partners that have provided us with relatively stable financing rates, allowing us to calculate the estimated monthly repayments presented in this document.

3. Estimated Repayments and Interest Rates

All monthly repayments provided are estimates calculated using an annual interest rate of 14% over four- and five-year repayment periods. The actual interest rate, repayment amount, deposit requirement, and loan terms are subject to the financing bank's assessment and approval. These figures may change depending on the bank's requirements and the terms offered to each customer.

4. Vehicle Prices

Vehicle prices are also subject to change without prior notice due to exchange rate fluctuations, supplier adjustments, and other market factors. Please confirm the current price before making a purchase decision.

Please note: Submitting your bank statement does not guarantee loan approval. Final approval and financing terms are determined solely by the financing bank.

FIDELITY 0% INITIAL DEPOSIT

ELIGIBILITY & PRICE NOTE

The Fidelity 0% initial deposit option is subject to eligibility: good banking history, no existing loan liability, and sufficient income to comfortably support the proposed monthly repayment. Customers who do not qualify for 0% may be required to pay 10% or 20% of the vehicle price as initial deposit.

The remaining balance is then spread over 5 years or 4 years at the applicable 14% interest rate. Vehicle prices are subject to monthly changes due to dollar exchange-rate fluctuations. If you plan to decide at the end of the month, please request an updated price and repayment quotation before making a decision.
